1A.3. READING: QUESTIONNAIRE ABOUT SLEEPING HABITS

Mostly answer A:

The average human needs around eight hours of sleep per night. You probably get this because you usually sleep very well. You have regular routines and you are hardly ever tired.

Mostly answer B:

You sleep fairly well. Maybe you wake up once or twice a night and that's normal. But you have a busy life, so you need extra hours in bed. Try to go to bed early during the week and sleep an extra hour at the weekend.

Mostly answer C:

You work hard and get home late, and sometimes work in the evening at home, so you probably don't get the sleep you need. Try to relax in the evening and go to bed early.

In this chapter, you have:

- Learnt new vocabulary related to daily routines;
- Read a questionnaire about sleeping habits.

Homework:

- Exercises on Canvas.
